**DEAR TRAVELERS**, please take the time to read thoroughly the following itinerary as many important details and recommendations about the program are explained here. If you should have any questions or concerns after reading this itinerary, please do not hesitate in contacting one of our travel specialists, we will gladly provide you with further information and make any recommendations to make your trip the most suitable possible.

**DAY 1** Arrive in **San Cristobal Is**: Interpretation Center / Tijeretas snorkel - Playa Carola

You can arrive to the Galapagos only by flight, from either Quito or Guayaquil (air ticket not included). Our guide will be waiting for you at the airport on **San Cristobal Island** where **the tour will begin**. After checking-in at the hotel and eating lunch in a local restaurant head to the **San Cristobal Interpretation Center** where our guide will explain how the Galapagos Islands were formed, the evolution of species, the migration of the animals, and the human settlements within the Galapagos.

After visiting the Interpretation Center, we will make our way to “**Cerro Tijeretas**”, or “Frigate Hill”. Here you can do some snorkeling to see colorful fish species, starfish, sea urchins, or to simply enjoy the crystal clear waters. The afternoon continues with a visit to **Playa Carola**, where you will have time to enjoy the beautiful beach before returning to the hotel to rest and eat dinner (at a local restaurant specified by the guide).

Along the way we will make a stop at the **Mirador de la Soledad** where you may enjoy a magnificent view of the island. Afterwards we will make our way to the **Laguna del Junco**, the only freshwater lagoon in San Cristobal, and

also where frigate birds come to wash their wings. We will then make a short stop at **Playa de Puerto Chino** before eating a lunch in the Highlands. We will then arrive at the hotel to rest and eat dinner at a local restaurant specified by the guide.

**\* OR pick one of the OPTIONS below \***

**NOTE:** The following options are subject to availability and last minute changes. **OPTION B** has an additional cost per person. Please, let us know what you prefer beforehand so we can arrange the excursion and advice on availability.

**OPTION A – Isla Lobos + Playa Ochoa \***

The short navigation towards Isla Lobos will begin after breakfast around 9:00 am. Los Lobos is a small islet separated from the main by a narrow channel. In this site you can find nesting blue-footed boobies (according to season) and, of course, a large colony of sea lions that rest and play on rocky shores. Many birds inhabit the place such as frigates, brown pelicans, lava gulls, common boobies, yellow warblers and finches. The snorkeling in the clear waters of the channel is unforgettable; it is perhaps the best site to swim side-by-side with sea lions. A stop will be made afterwards at Playa Ochoa to relax at the beach and enjoy the great view. We return to Puerto Baquerizo between 2:30 - 3 PM. After a rest, you will have dinner in the restaurant specified by the guide.

**OPTION B – Kicker Rock + Beach Time \***

This site is also known as Sleeping Lion or “León Dormido”. Getting to this spot takes 1 hr navigation. The first stop will be right before Kicker Rock (going down of Cerro Tijeretas) for some fine swimming and snorkeling. Kicker Rock itself is considered one of the most outstanding snorkeling sites in the Galapagos. The excursion consists of two snorkel immersions, one in the morning and one in the afternoon after lunch. A Box Lunch will be served in the boat, as these parts of the islands are inhabited. Afterwards, we will make our way towards a deserted beach to observe wildlife and relax. We will head back to the boat and return to San Cristobal. Between 1946 and 1959 Isabela Island was used as a penal colony by the Ecuadorian government, and the prisoners were obligated to build this wall out of the sharp and hard volcanic rocks.
